R. Alloway brought home a fine timber wolf hide and two deer skins from his hunting expedition. The wolf skin measured about seven feet from the tip of the nose to the end of the tail. Mr. Alloway states that there were eight wolves in the bunch that he got this one from and they had no less than 150 calves and 100 colts killed to their credit. He was down N.E. of Gleichen.

A Shelina and Frank Herrigan will commence the erection of a skating rink on the large slough west of town on Monday. The rink will be 300 feet long and about 60 feet wide. They announce that everything possible as far as lay in their power will be done to make the rink a success to the patrons and hope to have the support of the skating public in their undertaking.

Didsbury has been one of the busiest spots on the C and E. this week. Grain has been coming in by the carload, no less than 30 trains being counted at the elevators and flour mill one day this week. Eleven cars of grain have been shipped out of Didsbury since Monday but the elevators are filling up rapidly and it is hoped that cars can be secured to continue taking away the grain, but it looks doubtful.

It is seldom that a case of drunkenness and disorderliness has to be recorded in Didsbury, but a case occurred on Thursday that should not pass without some warning to others who feel inclined to act the way this young fellow did. This man ? (for the respect that we have for his parents, we will not mention his name) who lives west of town, had been imbibing too freely through the day and proceeded to the residence of one of our well-known citizens and proceeded to tear up things generally, frightening the women folks out of the house and badly scaring them. Constable Vernon was informed of the affair and immediately placed the offender under arrest, locking him up in jail. A brother who was also in town objected to this and also started in to abuse the constable who called for help and also placed him under arrest but let him go again as he was a married man and promised to appear when wanted. They were both brought before the magistrates on Friday morning. We shall be compelled the next time anything of this kind occurs to publish the names of the parties as a warning to others.

persons suffer at some-
time or other from Piles!

So says a great medical authority. There is no disease causes more pain and weakness than piles, and by giving almost immediate relief Zam-Buk has won the praise of thousands of sufferers. Mr. Neil Dwyer, Webbwood, Ont., suffered with piles eight years. A few boxes of Zam-Buk cured him. He since says: "I have had no return of the trouble so that I know the cure is permanent."

Mr. C. B. Frost, Lennoxville, P.Q., writes: "I have proved Zam-Buk a great cure for piles from which I suffered severely for a long time."

Zam-Buk also cures cuts, ulcers, burns, abscesses, poisoned wounds, boils, eczema, and all skin troubles. See a box, all druggists and sizers or from Zam-Buk Co., Toronto, 3 boxes for \$1.25.

A Remedy for Bilious Headaches.

To those subject to bilious headache, Parmed's Vegetable Pills are recommended as the way to speedy relief. Taken according to directions they will subdue irregularities of the stomach and so act upon the nerves and blood vessels that the pains in the head will cease. There are few who are not at some time subject to biliousness and familiar with its attendant evils. Yet none need suffer with these pills at hand.

In the causes of infant mortality cholera morbus figures frequently, and it may be said that complaints of the bowels are great destroyers of child life. If all mothers would avail themselves of an effective remedy as Dr. J. D. Keller's Infancy Cordial many a little one could be saved. This Cordial can be given with safety to the smallest child, as there is no injurious substance in it.

He was her "very best young man" and she was doing all she could to encourage him. "Did you know," he asked, "that I passed your house last evening?" "Of course I did," she answered promptly. Brutality of Chess.

That great chess master and philosopher, Dr. Lasker, accounts as follows for Dr. Tarasch's defeat in the second game of the notable match now playing at Dusseldorf:—

"Tarasch had outplayed me in the opening, but he lacked the passion that whips the blood when great stakes can be gained by resolute and self-denial during."

For all that the doctor of Nuremberg was sufficiently exhausted by his vain efforts to recover the attack. Outplayed and played out he was completely exhausted by the end of the opening day, nor was that enough, for when Friday came he still found himself unfit to resume and accordingly took the full count.

Those humane people who made so much noise over the "horror" of the Marathon race ought surely to turn their attention to the brutalities of chess. We will not say that the game should be suppressed entirely, but would it not be wise to regulate it a little in the interests of humanity?—New York Sun.

The New York American of Dec. 15th, 1907, says the common house fly is one of the greatest enemies of man. It is a solemn, scientifically ascertained fact that he is one of the worst disseminators of disease known far surpassing the mosquito in this respect. Wilson Fly Pad will kill many times more flies than any other article.

Who Will Be Mayor

The elections for Mayor, Councillors and School Trustees is close at hand and so far very little interest is being taken to get good men and true to conduct the business of the town next year. While the present Council have perhaps not done anything very brilliant in legislation this year, it looks as though they will at last settle on some definite system of fire protection, a matter that has been in hand ever since Didsbury had a town council. This will remove a stumbling block from the Council next year, and if the old council get the lighting proposition off their hands there will be no very knotty problems for next year which should be an inducement to those who aspire to municipal honors.

Mayor Semuth has decided that he will not be a candidate for the Mayor next year and Councillor Atkins has also absolutely declined becoming a candidate. Now it is up to someone else to take hold.

Of the councillors Messrs. Liesemer, Atkins and Berscht are the ones who retire and all have stated that they will not be candidates again, so that new men will have to take their places.

Of the school board very little is known, excepting Chairman Gaddies, Trustees Semuth and Hembling retire this year.

It is likely that the annual town meeting will be held about December 4th. Nomination day is on December 7th, and election day one week later, on December 14th.

Getting Down to Business

The Council at their Monday night's meeting ~~received~~ ^{received} information on fire fighting matters than they have done since the matter was taken up. While the expenses of sending Councillor Hembling to Calgary have been incurred it is money well spent and would have saved a lot of wrangling and lost time if it had been done months ago, and we would have had some sort of fire protection by this time. As things appear now it was just as well that they let the gasoline engine proposition drop as it has been proved (at Stettler and elsewhere) that the engines are not to be depended upon, and the outlay of eight or nine thousand dollars would have been wasted money. But now that they know and have looked into the different systems they should lose no time in making use of the information they received from Calgary.

The chemical engines look like a good proposition to us and we think will meet with the approval of the majority of the ratepayers. The public opinion, we think, will be in favor of buying two single 48 cylinder engines, because if there are two they can be used on different parts of the fire, while with only one 60 gallon this advantage is not obtained. The cost will only be a trifle more than for a single cylinder. It is thought that they can be bought for between \$300 and \$1,000. This with the cost of building a place to keep them in, which should not be more than two or three thousand dollars, will be much less expensive and perhaps as effective as any system they could install.

A clergyman writes: "Preventives" those little Canby Cold Cure Tablets are working wonders in my parish. Preventives surely will check a cold, or the Grippe, in a few hours. And Preventives are so safe and harmless. No Quinine, nothing harsh, or sickening. Fine for feverish restless children. Box of 48 at 25c. Sold by H. W. Chambers.

An Explanation of the Recent Elections

(Continued.)
Many men, including a newspaper editors, have been advancing reasons why the provinces of Quebec and Ontario endorsed the administration of Sir Wilfrid Laurier at the last Dominion elections. The question is one that might be discussed with profit. Let us look for a moment at some of the causes which in the provinces of Ontario and Quebec, contributed to the return of the Liberal administration to power so recently.

It could not have been the question of tariff for both parties believe in a prohibition duty sufficient for protection. It was not because of the clean impartial administration of Sir Wilfrid. It cannot be the railroad building of the Liberals in the last twelve years because it is not of such a nature as would particularly appeal to the East. It is not in the spending of public money because the Liberals increased the expenditure three-fold in the last twelve years. It could not have been the promise of building the Hudson Bay Railroad because the Conservative party promised that in 1896 and suffered defeat. So what is it?

It must be that great project, i.e. the building of the Grand Trunk Pacific through Ontario and Quebec that appealed to the selfish interests of the people of these two provinces. Especially so in view of the fact that the people of Canada will have to bear the cost of this road to the tune of two hundred millions of dollars, and the people of these two provinces will have a road built that will develop their own resources and will have the financial assistance of the whole Dominion in building it. This I assume is one cause of the return of Sir Wilfrid to power.

Then again, some may say that the Dominion Government is going to build the Hudson Bay road which is not going to benefit the people of Ontario and Quebec. But what do the Liberals affirm? They claim that the Hudson Bay road will be built from the money secured by the sale of Western lands. But, moreover, the uninitiated will ask why the government did not sell any Ontario and Quebec lands to build the Grand Trunk Pacific though these provinces—yes or no. No! Why? Because the provinces of Ontario and Quebec own their lands—hence the Dominion cannot sell them.

But then some one will ask why the provinces of Saskatchewan and Alberta voted Liberal. I shall answer and tell you that the free and independent elector voted Conservative, but the government officials, the paid fed politicians, the subservient homesteader and the flunky legislators the two new provinces with all their influence of jeremiander and plugging of polling subdivisions, have been able to stifle the will of the people. We shall have to hide our time until the measure of unjust treatment will overflow, when the people will rise and hurl from power the unjust and ignominious stewards who are at present holding sway at Ottawa.

"The Mills of God grind slowly but exceedingly fine."

A Good Story

A good story that will make you laugh is better than five dollars' worth of doctor's medicine. The first of "The Old Home House" series of eleven complete stories begins in the Family Herald and Weekly Star, of Montreal, this week. There will be one complete story each issue for the next three months, and that means many a good hearty laugh around the fireside during the winter evenings. A subscriber to his big weekly certainly gets value for his money. The paper only costs one dollar a year, and the amount of sound information given in a year's reading is marvellous. The stories alone could not be bought for twenty dollars. The agricultural columns of the paper are regarded as the best in America. The Family Herald and Weekly Star should not be missed in any Canadian home.

Rheumatism promptly driven from the blood with Dr. Shoop's Rheumatic Remedy. Don't waste time with common remedies. A text will surely tell. In tablet or liquid form. Sold by H. W. Chambers.

Neapolis

Two threshing outfits on an eighty acre field is something new even for this part of the country. This is what can be seen on the farm of H. Metcalfe.

Mr. and Mrs. R. Milne spent the week end at Neapolis, visiting Mr. Milne's parents, Mr. and Mrs. W. S. Siddle.

J. Metcalfe was a visitor in this district last week.

There was a surprise party at the home of D. M. Stuart last Monday evening given in honor of Miss Lennie Stuart. There was a very large number of young people there and all thoroughly enjoyed themselves.

Mrs. J. L. Ward who is teaching at the Devonport Schoolhouse about six and a half miles from Neapolis, is arranging to have her social in the schoolhouse there on Friday night, December 4th. The proceeds to be used to buy an organ for the school.

Councillor Metcalfe has retired from driving the mail wagon for a time in order to give his attention to other matters.

It isn't so difficult to strengthen a weak stomach if one goes at it correctly. And this is true of the Heart and Kidneys. The old fashioned way of dosing the stomach or stimulating the Heart or Kidneys is surely wrong! Dr. Shoop first pointed out this error. "Go to the weak or ailing nerves of these organs," said he. Each inside organ has its controlling or "inside nerve." When these nerves fail these organs must surely suffer. This vital truth is leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. A few days test will surely tell! Sold by H. W. Chambers.
